

THE PRACTICAL ANSWER
FOR SMALLER AREA CLEANING

” Being the
best means that
nobody does it
better “

Nilfisk
CA 331

PERFORMANCE PLUS FLEXIBILITY FOR ADDED VALUE

Wouldn't it be nice to be able to utilise the cleaning efficiency and productivity of a scrubber/dryer in smaller spaces? Well now you can, thanks to the CA 331, the latest addition to the Nilfisk portfolio of value-adding floor cleaning equipment.

Nilfisk CA 331 is the smallest scrubber/dryer in the Nilfisk portfolio. It represents a unique combination of compact design, cleaning performance and drying efficiency.

The Nilfisk CA 331 is compact in size, allowing it to clean under furniture and in those tight, congested areas where other scrubber/dryers can't even think of going. Yet, despite the small profile, the cleaning power is that of a far bigger machine. In fact, no other machine on the market can offer the same combination of cleaning and drying efficiency, compactness, and value for money.

- Easy to transport: the machine weight is only 22 kg; the handle can be folded on the machine.
- Scrubbing and drying performance: the machine is equipped with two brushes/ pads giving 15 kg of down pressure, to ensure real scrubbing efficiency
- The unit can be operated going forwards or backwards, with terrific drying capability in either direction
- Superb compact design (56cm x 39cm x 37 cm) allows cleaning in highly congested areas, even cleaning under furniture
- Adjustable handle allows the operator to select the optimal cleaning position
- Folding handle makes transportation from job to job easy
- Superb performance in areas where scrubber/dryers normally can't access

Dual squeegees give better drying in either "forward" or "reverse" mode

The recovery tank can be tilted for easy cleaning and better access to batteries and detergent solution

Folded handle makes transportation from job to job easy

RELIABILITY IS ALSO OUR MANTRA WHEN IT COMES TO SERVICE

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: four levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

24-HOUR SERVICE

Full Service+ Solution

A total coverage package offering four maintenance visits a year + service at a known fixed cost. Optimal for customers with a need for extensive daily cleaning. Labour, travel expenses, spares and parts are all included.

Full Service Solution

A package offering four maintenance visits a year + service. Ideal for customers who clean daily. Labour, travel expenses and spares are included.

Standard Service Solution

This package provides two preventative maintenance visits a year. Labour and travel expenses are included.

Subscription Solution

By entering the subscription contract, the customer agrees to a minimum of one maintenance visit per year.

Adjustable and foldable handle for flexibility and convenience

Compact profile enables access to congested and space-restricted areas

On/Off buttons can be foot activated

Tanks can be easily removed or tilted for cleaning and convenience. Two separate tanks

8 litre tank capacity allows up to 220m² of cleaning from one tank load

Dual squeegees allows effective drying in either forward or reverse mode

TECHNICAL SPECIFICATIONS

Description	Unit	CA 331
Voltage	V	12
Rated power	W	580
Sound pressure level at 1.5m	dB(A)	72
Productivity rate theoretical/ actual	m ² /h	1320/660
Scrubbing width	mm	330
Max speed	km/h	3
Solution/recovery tank	litre	7/8
Brush/pad diameter	mm	165
Brush pressure	kg	15
Brush speed	rpm	200
Cable length	m	15
Length x width x height (machine body)	cm	66x39x37
Weight	kg	22
Operating weight	kg	29
