## Compact and ergonomic back vac for aircrafts

The 115v 400Hz motor ensures we comply with all relevant aviation regulations and this is the main difference between the standard and Fly models. The HEPA filter keeps the air quality within the cabin at an extremely high level while the Premium Harness maximises user comfort during a cleaning process that is often under strict time pressure. The Conical Hose, High Performance Combination Nozzle, Telescopic Aluminium Tube and Crevice Nozzle, combined with the compact dimensions of the machine, allow for fast and thorough cleaning, ensuring the GD5 Fly is the ideal choice when cleaning the world's airlines.

- · Compact design for working in confined areas
- · High quality nozzles for maximum cleaning efficiency and performance
- · Premium harness for increased user comfort
- Aluminium telescopic tube for light weight adjustable cleaning demands
- · HEPA Filter optimising air quality

Your vacuum cleaner for aircrafts will bring superior suction power with flexible and effecient cleaning performance.

## Compact and ergonomic back vac for aircrafts

Model	GD5 FLY
Ref. no.	107410451
PRODUCT FEATURES	
Dust bag (1 pcs)	•
Hepa filtration	•
Compact design	•
Technical specifications	GD5 FLY
Energy Label	B Link
Energy efficiency class	В
Annual energy consumption (kWh/annum)	29
Dust pick up on carpet	E
Dust pick up on hard floor	F
Dust re-emission class	E

Plug type	US
Volt/frequency (V/Hz)	115/400
Rated power (W)	800
Suction power end of tube (W)	126
Airflow (I/sec)	29
Vacuum at nozzle (kPa)	23
Sound pressure level (dB(A) BS 5415)	59
Sound power level (dB(A) IEC 704)	77+-2

Cable length (m) 20
Dust bag capacity (I) 5
Main filter area (cm²) 1397

Main filter area (cm²)

Length x width x height (cm)

38x26x57

 $\bullet$  Standard equipment,  $^{\circlearrowleft}$  Supplementary accessories,  $^{\square}$  Mountable equipment

Weight (kg)
