

Robust and powerful petrol driven cold water high pressure washers

Reliable Honda engines ensure long working life and high reliability. High pressure levels cut cleaning time to a minimum. The machines are designed for use in harsh environments, combining robustness and maniability.

- Robust long life pumps with ceramic pistons
- Robust and maniable design
- Wide range of performance levels with high pressure levels
- Lightweight yet maniable design
- Ergo accessory concept

The MC PE/DE range is ideal for use in areas where electrical power may not at all be available or not be string enough to allow high power cleaning. Self priming and suction ability also means that water can be drawn from a tank or river. Ideal for use in building and construction, rental, agricultural segments.
