

Household vacuum cleaner - Danish design and quality

Unique Scandinavian design with high performance

The new Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology.

We've taken over 100 years of experience and the best of our top design features to produce this inspired model that delivers all you would expect from a quality Nilfisk appliance.

Allergy rating – homes today have a high level of dust and airborne particles and allergies are becoming more and more prevalent. The Nilfisk Select reduces the dust levels in your home with an 'A' dust remission rating with the inclusion of an efficient HEPA 13 filter. HEPA 13 filters secure cleaning without dust particles re-entering your home. For an even greater level of protection the Nilfisk Select Allergy model is equipped with a HEPA 14 filter. HEPA 13 and 14 filters are able to pick up the microscopic particles and return the filtered air to the room even cleaner than the air was to begin with.

Cleaning performance - dust pickup on carpet boasts a 'C' rating and on hard flooring an 'A' rating. This performance is achieved through optimization throughout the whole machine, without compromising on energy use and performance.

Energy saving – with an Energy Class 'A' rating you will save up to 50% of power usage compared to other vacuums.

Smaller for easy storage – we've made the Nilfisk Select small enough to store easily whilst still retaining all the latest features you would expect from a larger vacuum cleaner. The Nilfisk Select Superior is fitted with a remote control handle with adjustable suction levels, and on/off functionality - makes using the Select a breeze.

So breathe easy with the new Nilfisk Select

The new Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology.

Nilfisk Select is the embodiment of design and functionality. A good looking, easy to use and on-board tools at hand when you need them.

Cleaning performance - dust pickup on carpet boasts a 'C' rating and on hard flooring an 'A' rating.

Nilfisk has a professional background and has made vacuum cleaners since 1906.

Nilfisk Select is tested through and through. Hence the Nilfisk Select comes with a 5 year guarantee.

All Nilfisk Select machines are rated "A" in energy usage, with a 750W motor. Compared to a 1550W machine, the Select use only 50% energy whilst maintaining the performance.

The whole Nilfisk Select machine is HEPA tight with dust proof gaskets - so dirt comes into the machine and clean air comes out.

The new Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology.

We've taken over 100 years of experience and the best of our top design features to produce this inspired model that delivers all you would expect from a quality Nilfisk appliance.
