

## The most compact and fully configurable, ATEX certified threephase

This range is composed by threephase explosion-proof industrial vacuums that can be customized. Two models: CTS with side channel blower for a greater vacuum or CTT with a turbine for a greater airflow. 2,2 or 4 kW power available. This series has a compact design making the vacuum really easy to move into the working area. Top filtering efficiency thanks to the L, M, H class filters that can be chosen by the customer according to the toxicity of the material to recover.

The innovative InfiniClean system make it the perfect solution for automated applications. The main filter is automatically and periodically cleaned with the exhaust air without any action required by the operator, keeping the highest level of efficiency and productivity.

- Ideal for continuous use (24/7)
- Silent
- Removable container
- Small, short but steady
- Highly configurable
- ATEX zone 22 version (CTS), zone 1-2 and 21-22 (CTT)
- InfiniClean version: the innovative automatic cartridge filter cleaning system featuring conical cartridges, for every kind of dust on CTS40 Z22 series.

Picture shown may not represent model quoted

Threephase explosion-proof industrial vacuums, compact, steady and ATEX certified and with infiniClean system.
