

High manoeuvrability and easy handling

Features

- Special vacuum nozzle with spiral brush - allows sweepings a problem free passing to the hopper
- Speed regulation of the front brushes is standard
- Nose wheel for height regulation of the front brushes - excellent sweeping result and minimal brush wear
- Stand to assist fitting and removal of the hopper supplied

Options

- Remote vacuum hose: the remote vacuum hose is ideal for cleaning hard-to-reach places such as between parked bicycles or in stairwells. The 6-metre-long hose is stored on top of the hopper and is always ready to use.
- Third side brush: Extends the sweeping width to 1,660 mm. This brush is operated hydraulically, which makes it perfect for sweeping right up to house walls or under benches, for example.

Dust control

The dust is fully under control with the Nilfisk Outdoor suction sweeper unit. Two spray jets mounted on the front brushes dampen the sweeping area and thereby bind the dust. The collecting tank features an innovative filter system binding even the smallest dust particles inside the tank.

Quick shift of attachments

With the Park Ranger 2150 the changeover from one attachment to another is done in less than 4 minutes - no tools required!

- Articulated & compact
- Professional performance
- 2 or 3 brushes
- Remote vacuum hose for stairs and basements
- Dust control, PM 10 certified

The Park Ranger 2150 suction sweeper unit is the most effective choice for the sweeping on footpaths, pavements, car parks, stairwells etc.. The suction sweeper unit features a fibreglass high tip hopper and a rotation cast fresh water tank. It is a robust and compact machine with high manoeuvrability. Hopper discharge follows directly from the driver's seat.

Model	FRONT BRUSHES	HOPPER
Ref. no.	E90101041	E90101331

Technical specifications

Airflow (m ³ /h)		2 500
Hopper volume (l)		450
Dimensions LxWxH (mm)		2 900 x 1 200 x 1 935
Storage dimension LxWxH	1 350 x 1 010 x 1 920	1 350 x 1 010 x 1 920
Height without cab (mm)		1 850
Height with remote vac hose (mm)		2 200
Weight - hopper (kg)		135
Weight- front brushes (kg)	50	
Weight - container frame (kg)		30

High manoeuvrability and easy handling

Model	FRONT BRUSHES	HOPPER
Ref. no.	E90101041	E90101331

Technical specifications

Max. weight in hopper (kg)		300
Water tank volume (l)		100
Clearing width with two brushes (mm)	1 200	
Clearing width with three brushes (mm)	1 660	
Air speed (km/h)		140
Turbine diameter (mm)		500
Ground clearance below vacuum nozzle (mm)	55	
Ground clearance below brushes (mm)	140	
Tipping height (mm)		1 300
